## REWARDS

Rewards - advertising campaigns, a feature that allows you to advertise places on the one hand, and earn crypto on the other. The main focus is restaurants in Canada, Vancouver.

# BENEFITS

## ■ FOR PARTNERS

---

- restaurant listings, menus, and food reviews can be integrated into any third-party application;
- Waivio Labs can help to create custom sites and applications using Waivio technology.

## ■ FOR USERS

---

- receive cryptocurrency as a reward for a review;
- a personalized stream of rewards;
- the aspirational activity (helping others discover great experiences);
- build social capital (likes, comments, connections, reputation).

## ■ FOR RESTAURANTS

---

- no management overhead;
- pay for results only;
- no employee fraud;
- easy to target new or lapsed customers;
- drive traffic during off-peak days and hours;
- receive honest dish-specific reviews.

# SYSTEM REVIEW

For the successful operation of the review system and the ability to create a campaign, waivio platform must have restaurant objects (as a primary object) and dish / drink (as secondary one).

# Create campaign

---

Campaign creation can be conditionally divided into 4 blocks:

1. General campaign settings;
2. Post requirements;
3. Eligibility criteria;
4. Legal.

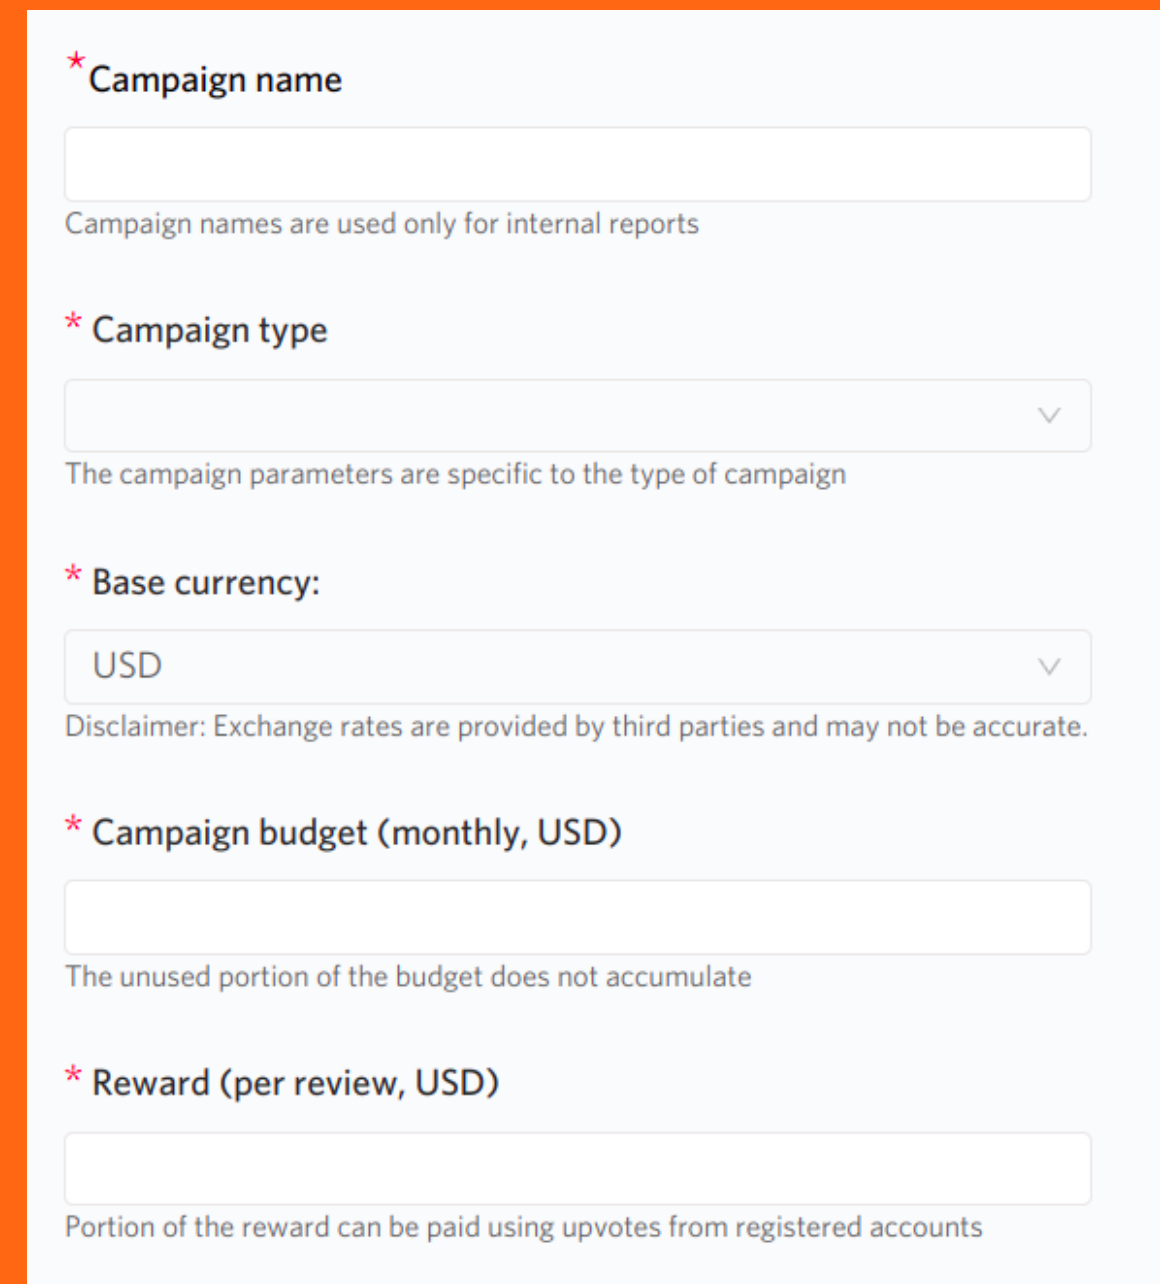

\*Fields with a star sign at the beginning are required

Original source: <https://www.waivio.com/@grampo/how-to-launch-a-rebate-program-for-a-restaurant-on-waivio6kj5va->

# General campaign settings

---

- **Campaign name** is used for internal reporting and references in notifications.
- **Campaign type** must be set to Reviews.
- **Base currency** is necessary to ensure a stable price in a given currency.
- **Campaign budget** monthly budget is the total budget that can be spent as a reward.
- **Reward** - the amount of reward per review in base currency. This amount will be displayed on the reward cards.

The screenshot shows a form with five main sections, each with a red asterisk indicating a required field:

- \* Campaign name**: A text input field. Below it, a note states: "Campaign names are used only for internal reports".
- \* Campaign type**: A dropdown menu. Below it, a note states: "The campaign parameters are specific to the type of campaign".
- \* Base currency:**: A dropdown menu showing "USD". Below it, a disclaimer states: "Disclaimer: Exchange rates are provided by third parties and may not be accurate."
- \* Campaign budget (monthly, USD)**: A text input field. Below it, a note states: "The unused portion of the budget does not accumulate".
- \* Reward (per review, USD)**: A text input field. Below it, a note states: "Portion of the reward can be paid using upvotes from registered accounts".

# General campaign settings

- **Registered upvoting accounts** - accounts, the value of all these upvotes will be subtracted from the reward. Because the reward can be paid as a combination of upvotes (author rewards) and liquid HIVE. These are match-bots upvotes.
- **Compensation account** - account to which the qualified upvotes will be sent. This means that the votes of the match-bots, specified in the field "Registered upvoting accounts", will not be deducted from the reward, but will be sent to compensation account.
- **Maximum reservation period** defines how many days the user will have after reward reservation for completing the review. After this period, the reservation will be expired.
- **Target days for reviews** - it is possible to target reviews for specific days of the week. This is achieved by dynamically changing the reservation period. For example, if Friday and Saturday are excluded and a user makes a reservation on Sunday, they will have 5 days to complete the review. But if a user makes a reservation on Thursday, they will only have 1 day to complete their review. On Fridays and Saturdays, this campaign will remain inactive.

## Registered upvoting accounts

The value of upvotes can be accumulated on a dedicated compensation account

## Compensation account (optional)

Accumulates the value of upvotes from registered upvoting accounts

## \* Maximum reservation period (days)

The available budget is reduced by the amount of rewards reserved

## Target days for reviews

<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Sun	Mon	Tue	Wed	Thu	Fri	Sat

Reservation period will be dynamically adjusted to match target days

# Post requirements

In order for a user to complete a campaign successfully, he must fulfill the requirements of the sponsor.

Eligible reviews (post requirements):

Minimum number of original photos (per review)

Request a photo of the receipt (without personal details)  
If selected, the number of photos required will be increased by one.

\* Link to the primary (parent) object

Example: business, brand, restaurant, etc.

\* Link to one of the secondary objects

Example: product, service, dish, etc.

Additional review requirements (optional)

This note will be shown to users at the time of reservation of the reward

- **The minimum number of original photos** of the secondary object must be specified. At the time of posting, the system will check the number of photos in the review and alert the user if the target number is not reached.
- **Photo of the receipt** - the requirement to include a photo of the invoice/receipt or another form of purchase confirmation. If this box is checked, the total number of photos required will be increased by one more.
- **Link to the primary object** - a special link to an object. In the review system, this is a restaurant.
- **Link to one of the secondary objects** - a special link to an object. In the review system, this is a dish or drink.
- **Additional post requirements** may be specified and will be presented to users at the time of writing the review.

# Eligibility criteria

---

- **Waivio expertise** - the amount of rewards users have earned on their posts, expressed in Hive Dollars (HBD), and it is possible to specify the minimum Waivio expertise as a condition for participating in the program.
- **Number of followers**. It is possible to launch campaigns with different rewards depending on the number of followers.
- **A minimum number of posts** that a user should have, may also be used as eligibility criteria
- **Campaign budget** monthly budget is the total budget that can be spent as a reward.
- **Eligibility period** - the period specifies how often a user can participate in this campaign. In this example, they can participate in the program every 15 days. If 0 - the user can participate all the time.

In order for a user to reserve a campaign successfully, he must meet the requirements specified by the sponsor. Only eligible users may participate in the campaign.

## Eligible users:

User eligibility criteria will be verified at the time of reward reservation only.

### Minimum Waivio expertise (optional)

New users on Waivio start with expertise of 0

### Minimum number of followers (optional)

New users start with 0 followers

### Minimum number of posts (optional)

New users start with 0 posts

### Eligibility period (days)

If there are no restrictions on the frequency of reviews of the primary object by the same user, the value should be set to zero.

# Legal

---

Legal section may include a reference to an agreement which specifies terms and conditions between the sponsor and users.

- **Link to the agreement.** The agreement must be published on the Hive blockchain as a page object, which preserves the history of all changes to the document on the public blockchain.
- **The legal notice to users** may be used to draw users' attention to specific terms of the agreement, such as minimum age or residency requirements.

## Legal

All reward payments are made directly to users by the campaign creator. Waivio and other partners provide information and discovery services only.

Here you can add a link to the agreement, which will govern the relationship between you and participating users.

### Link to the agreement (page object, optional)

### Legal notice to users (optional)

This note may be used to draw users attention to the specific terms and conditions of the agreement.

# Legal

---

- **Legal confirmation.** This campaign will be administered by Waivio Technologies Inc. and the sponsor must confirm that it agrees to the terms and conditions of the service and that its campaign does not violate any laws of British Columbia, Canada.
- **The campaign expiry date** must be specified.
- **Commissions to Waivio and partners.** In addition to the reward that will be paid to the user, the sponsor must also specify the commissions it offers to all parties that will index, promote and assist users in completing qualified reviews. The minimum commission is 5%, but it can be increased to improve the visibility of the rewards campaign.

\* I agree to the **Terms and Conditions** of the service and acknowledge that this campaign does not violate any laws of British Columbia, Canada.

# 2ND WAY TO PAY

1. REWARDS;
2. Payables tab in Campaign section;
3. Click on arrow button;
4. Click on Pay button.

\*Example for general situation where user is hive account

# Sponsor must pay

**User rewards = author + waivio**

**User rewards** - this is the reward that was promised to the executor when he reserved the campaign; which the sponsor indicated in the base currency when creating the campaign (Create -> "Reward" field).

Consist of:

- **author** = beneficiary - the user who wrote the post, can also have several beneficiaries if the user has this specified in the settings; usually - is 97%;
- **waivio** - waivio platform's additional fee, by default - is 3%, sponsor can't change it.  
(Instead of waivio - it can be another account - site owner. Details slide 32)

During the reservation, the reward from dollars is converted to the selected cryptocurrency at the current rate - and this is the amount that the sponsor will have to pay. If the base currency is not a dollar, then it is first converted into a dollar, and then into a cryptocurrency.

# Sponsor must pay

**Processing fees** - additional payment for using services that allow you to publish, place a campaign, find a suitable user. These fees are paid by campaign sponsor in addition to the user rewards.

By default - is **5%**, but sponsor can change it, during campaign creation (Create -> "I agree to pay the following commissions to Waivio and partners" field.)

Consist of:

- **waivio.campaigns** - this account (service) responsible for campaign management - for placing and publishing the terms of an advertising campaign on the blockchain - 1.5%;
- **waivio.index** - this account (service) responsible for rewards indexing - for recording a reservation by waivio.referrals, helps eligible user reserve reward - 0.71%;
- **waivio.referrals** - this account (service) responsible for referral - who helps find an eligible user 2.8%. (details next slide)

**waivio.referrals** - in fact, this is the interest of the site from which the review was published.

For example:

<https://www.waivio.com/> - waivio.referrals;

<https://dining.gifts/> - grampo (as site owner);

<https://test.dining.gifts/> - eyedin (as site owner).

When hive user is creating a site (from waivio.platform), as site owner, he will be instead of waivio.referrals (can be changed to another user) in beneficiary for post and referral.

\*The same situation with **waivio** account for **User rewards**.

REWARDS -> Payables

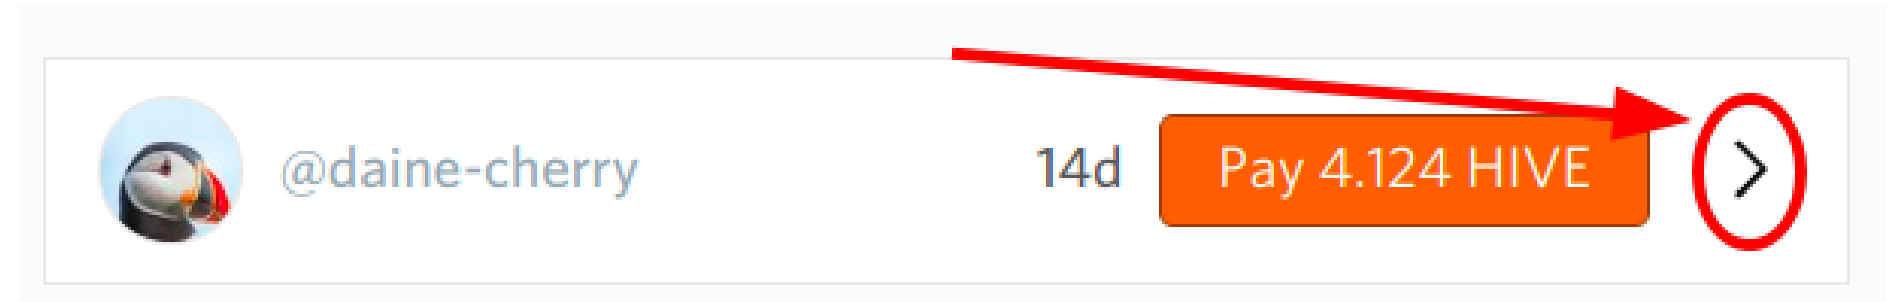

The screenshot shows the 'REWARDS' section of a dashboard. At the top, there are navigation links: 'MY FEED', 'REWARDS' (circled in red), 'DISCOVER', 'TOOLS', and 'ABOUT'. Below this, the 'Rewards:' section is expanded, showing a total of '17.39 HIVE (\$8.23)'. A 'Sort by amount' dropdown is visible. The main content area displays a list of payables with columns for user profile, name, days of debt, and a 'Pay' button. The 'Payables (!)' tab in the left sidebar is also circled in red. On the right, there is a 'Filter rewards' section with a search bar and checkboxes for 'Over 7 days', 'Over 14 days', 'Over 21 days', and 'Over 10 HIVE'.

User	Days	Amount
@daine-cherry	14d	Pay 4.124 HIVE
Waivio @waivio	539d	Pay 3.863 HIVE
Waivio Referrals @waivio.referrals	461d	Pay 2.123 HIVE
Waivio Campaigns @waivio.campaigns	363d	Pay 2.006 HIVE
@ctrl-news	14d	Pay 1.887 HIVE

- The sponsor can see the total amount of rewards he has to pay;
- an alert next to the tab name (Payables(!)) means that the sponsor has campaign debt for more than 21 days;
- if the debt is more than 30 days, then all campaigns stop and go to "suspended" status;

- sponsor can sort this list by amount and time;
- user can also filter the list by the number of days of debt and the amount;
- the number of days of debt is written next to the pay button.

After clicking on arrow, sponsor can see the complete **general report** for specific user.

**Fraud detection tab** - a list with secondaries of cards, in which the photos are not authentic.

REWARDS -> Fraud detection

The selection of cards is limited to 30 days.

At the moment, the check is carried out as follows:

1. the models of the devices on which the pictures for the review were taken are compared, if they differ, the user is suspected of fraud.
2. if the image has gps coordinates, then it is checked that they are made within a radius of 1 km from the restaurant (provided that the object has a map)
3. the date of creation of the image is checked - it must be no earlier than 14 days before the reservation of the company.

The code below shows the detailed reason.

## Fraud detection assistant

**Disclaimer:** It is an experimental service with a limited scope and is provided "as is" with no guarantee of applicability for the detection of probable fraud attempts. All submissions must always be manually verified and confirmed by the campaign sponsor.
